STABILITY

Message from Chairperson & CEO

Strength, Growth & Stability

We are pleased to report that in 2008 Market USA Federal Credit Union experienced a year of improving financial strength, continued high quality service and growth for our valued members. Our success during the past year is an achievement given the challenges facing the financial industry as a whole. Market USA Federal Credit Union continues to be a sound financial institution with an extremely strong reserve position. As of December 2008, our net worth to assets ratio was in the top 1% for U.S. credit unions with assets greater than \$50 million. That means that Market USA Federal Credit Union is one of the safest financial institutions around. In addition:

- We have never engaged in any sub-prime real estate lending
- We adhere to sound financial underwriting practices
- We are audited regularly by an independent auditing firm and examined periodically by the National Credit Union Administration
- Deposits are insured by the National Credit Union Administration, a U.S. Government Agency up to \$250,000

Strength: The power of responsible lending

A healthy loan portfolio is a key component of any financial institution. While the "credit crisis" made lending difficult at other institutions, Market USA Federal Credit Union continued to help members buy cars, move into new homes, and accomplish other financial goals.

We developed some innovative loan programs in 2008 which were very successful:

- Our "Fuel Assistance Loan" was developed and implemented this past fall. This product offered members a low interest loan while making it easy to pay their high heating and fuel bills.
- The Spring and Fall Visa promotions increased our credit card portfolio by 57% in 2008.
- Our "Keep your Ride, Cut your Payment" campaign generated many new auto loans that were refinanced from other financial institutions.
- We also implemented a Pay-by-Phone program making it more convenient for members to pay their delinquent loans.

While working diligently to help our members with their borrowing needs, we have also maintained a low delinquency ratio of 0.40%, compared to the industry peer average of 1.27%. With our members' best interests in mind, in 2008 we worked with CUNA Mutual Insurance to develop an enhanced loan payment protection product which included involuntary unemployment protection as well as life and disability protection coverages. The new loan payment protection program became available to members in March 2009.

Growth: The power of service

As a cooperative, not-for-profit financial institution, Market USA Federal Credit Union has a well-defined mission: To serve the diverse financial needs of its members throughout their lifetimes. This mission takes many different forms over the course of a year, as we communicate with current and prospective members, listen to your concerns, and respond with relevant products, services and programs.

In 2008, we launched a Fresh Start Checking Program, designed to allow members who normally would not be permitted to open a checking account to open one and receive financial education on how to manage their money. A Certificate Premium Program to reward members who have additional products and services with the Credit

Union was also introduced. Members with e-statements and direct deposit of net pay receive a .35% premium on their certificate rates. We implemented two major services for your convenience. Our Internet Banking now has a new feature which displays holds on accounts. We have added a solution to sending loan documents securely through email which decreases processing time and quickly puts loans in our members' hands.

In 2008, we implemented the Check 21 program where paper checks are replaced with substitute checks created from electronic images of the paper checks. With Check 21, check processing is faster, more efficient and helps the environment by reducing energy consumption. We also continued to promote Internet Banking and e-statements, not just as increased convenience for members but also terrific services which help the environment. We had many members take advantage of our e-alerts which can be received as text messages or e-mails.

Throughout 2008, we found unique ways to support and interact with local communities. We supported many community and charitable events including the Stop & Shop Scholarship Program, the Latino Professional Networking Reception and the Lewis G. Schaeenman, Jr. Memorial Scholarship Foundation, Inc. In addition, we raised over \$1,300.00 for the Children's Miracle Network.

In 2008, we began working on enhancing our checking products and in March of 2009 launched two great new checking accounts: a high interest VIP Checking Account and a RockStar Checking Account where members earn i-Tunes credits. Our members will now have an opportunity to receive what may potentially be the best Checking account products in the industry.

Stability: The power of trust

In the midst of great uncertainty in the financial markets, Market USA Federal Credit Union served as a shelter from the storm. As a member, you can save with confidence, knowing that Market USA Federal Credit Union's reserves are extremely strong and your deposits are federally insured to an increased level of \$250,000 per depositor through the end of 2009. You can also use our online services with confidence, knowing that your transactions are protected by multiple layers of security. When you have questions, concerns or other financial needs, you can turn to us with confidence knowing that we truly care about your financial well being.

On behalf of the staff, management and Board of Directors, we want to thank you for playing a central role in the ongoing success of your Credit Union. We look forward to serving your needs in the years to come.

Sincerely,

Walter Lutman

SUPERVISORY COMMITTEE REPORT

The Supervisory Committee, appointed by the Board of Directors, is charged with the responsibility of overseeing Market USA Federal Credit Union's management and financial records to ensure the institution's financial condition is fairly presented.

An integral part of ensuring the fair presentation of financial condition is the execution of the annual independent audit. This year we appointed the firm of LarsonAllen LLP to fulfill that responsibility. We are pleased to report their audit resulted in an unqualified opinion. The Supervisory Committee has reviewed all recommendations made by LarsonAllen that are designed to strengthen the Credit Union's operating procedures. Additionally, we reviewed

the National Credit Union Administration's examination report. The Supervisory Committee, Board of Directors and Credit Union Staff are addressing all recommendations made.

The Supervisory Committee looks forward to continuing to serve the Board and all the Members of our Credit Union in this oversight capacity.
