Message from Chairperson & CEO

LEADING THE WAY

In a year when external financial factors challenged all financial institutions, Market USA Federal Credit Union remained strong and set our own path to face the future. We took the opportunity in 2010 to look inwardly and accentuate our strengths to ensure continued growth and stability for the credit union and you—the membership.

LEADING THE WAY with Protective Measures

Protecting the financial strength of the credit union is the responsibility of the Board and Management. We take this responsibility very seriously. This year we conducted an Enterprise wide Risk Assessment to ensure that we are aware and understand the broad spectrum of complex risks that an organization like ours faces. By staying informed, we can prepare and appropriately manage the factors that help us to identify and mitigate potential risks. When we secure a loan with collateral, we depend on the member's insurance to protect that asset. If a member does not provide us proof of insurance within a reasonable timeframe, Market USA FCU will purchase Collateral Protection Insurance and add the expense to the member's loan. This allows us to keep lending while protecting the interest of the entire membership.

LEADING THE WAY with Sound Compliance

2010 was a very busy year for the financial industry to implement several sweeping reforms handed down by federal regulators. These new regulations and procedures will help inform and protect consumers; nevertheless, their swift implementation was quite a challenge for both Market USA FCU employee and fiscal resources. We rose to the challenge and successfully executed the Regulation E, Privacy Policy, Privilege Pay, and Regulation Z changes within all Federal and NCUA guidelines.

LEADING THE WAY with our Best Face Forward

Market USA FCU reached out in 2010 to our members and our staff. We increased our in-person visits to allow our employees to meet and speak with members and management on a regular basis without a cumbersome process. We investigated and implemented a new Call Center monitoring software that will increase member service on the phone and give our employees renewed confidence in their abilities to provide that service. In addition, in keeping up with the fast-paced uses of social media and communications, we established a Twitter account and increased our use of Facebook to bring information and dialogue directly to you.

LEADING THE WAY by Taking the Lead

We completed a merger with Epworth Federal Credit Union in June of 2010 bringing the clergy, church members, lay pastors, and employees of the Baltimore –Washington Conference of the United Methodist Church to membership at our credit union. Although we have closed the Reisterstown location, our new members will enjoy the access, economies of scale, and additional benefits that membership at Market USA FCU can provide.

LEADING THE WAY with Exceptional Employees

One of the most valuable assets of any business is a talented and dedicated employee staff. Market USA FCU is no different. We search for the best and brightest people so that you are served with exceptional skill and enthusiasm. To make sure we remain a competitive and desirable place to work, we focused on operational efficiencies and improvements in our Human Resources area throughout 2010.

- Developed a comprehensive Employee Handbook
- Updated our Member Service Policy & Procedures Manual

- Decoupled from Ahold's employee benefits and analyzed and implemented our own plan
- Improved payroll processing by converting to ADP services
- Initiated internal employee benefits
- Wrote complete procedures to outline HR processing

LEADING THE WAY by Planning Ahead

You may not notice all the improvements we implemented in 2010, but you will appreciate them if ever needed. Take for example, our Skip-A-Pay Club program launched in November, just in time for the holidays. Skip-A-Pay allows you to skip a scheduled loan payment during a month your budget might be extra tight and in need of extra cash. Even members who may not use this added convenience will benefit from the peace of mind of knowing it's there.

Another added benefit you may not appreciate until later is our Medicare Supplemental Coverage through Member Connect. For our members over 65, making Medicare decisions can be overwhelming and confusing. The eligibility factors and endless options are hard to navigate. Through a partnership with Humana (*a company dedicated to serving Medicare needs*) and CUNA Mutual Group's Member Connect (*a company dedicated to serving the needs of credit union members*) Market USA FCU now offers Medicare Supplemental Coverage. This team of experts will help you with no-cost consultations, toll-free numbers and a website to access plan information, and convenient online enrollment.

With bankruptcy filings rising nationally and the unemployment rates remaining high, we developed a loan modification policy that will protect the credit union and assist the member in their time of need. Most people do not plan to default on a loan and the credit union certainly does not want to make a hard situation worse. However, if you find yourself in this situation, rest assured that our new loan modification policy would streamline the procedures while protecting everyone involved.

Lastly, a self-service coin counter might not "wow" you today, but when the day comes for you to break your piggy bank or coin jar, or count the pennies from a school fundraiser, you will be thanking us. Started as a pilot in the Laurel branch in November, results will determine if we add the machines to additional branches.

As we look forward to 2011, we are optimistic that we are prepared to prosper in the future. The economy is showing signs of improvement and our members are sharing stories of rebounding and recovering. As we steer Market USA FCU forward, we will continue to provide you with the products and services that bring you value and help you build successful financial lives.

Thank you.
Sincerely,

Walter Lutman

SUPERVISORY COMMITTEE REPORT

The Supervisory Committee, appointed by the Board of Directors, is charged with the responsibility of overseeing Market USA Federal Credit Union's management and financial records to ensure the institution's financial condition is fairly presented.

An integral part of ensuring the fair presentation of financial condition is the execution of the annual independent audit. This year we appointed the firm of Larson Allen LLP to fulfill that responsibility.

We are pleased to report their audit resulted in an unqualified opinion. The Supervisory Committee has reviewed all recommendations made by Larson Allen, including those of the National Credit Union Administration.
